PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, 2026) with a strong interest in cybersecurity and ethical hacking. Holds four Cisco certifications in ethical hacking, networking, and cybersecurity fundamentals. Hands-on experience with a wide range of penetration testing and network analysis tools including Metasploit, Burp Suite, SEToolkit, Nmap, Wireshark, and more. Actively building a cybersecurity portfolio and looking to start a career as a junior penetration tester or security analyst.

CERTIFICATIONS

Ethical Hacker Cisco · Credly Verified View Badge	Introduction to Cybersecurity Cisco · Credly Verified View Badge
Networking Basics Cisco · Credly Verified View Badge	Networking Devices & Initial Configuration Cisco · Credly Verified View Badge
Python Essentials 2 Cisco · Credly Verified View Badge	Python Essentials 1 Cisco · Credly Verified View Badge
Cybersecurity TechMahindra · Skill India Digital View Certificate	

SKILLS & TOOLS

Networking	TCP/IP, Network Protocols, Network Configuration
Security Concepts	Ethical Hacking, Vulnerability Assessment, Web Application Security, MITM Attacks
Network Analysis	Nmap, Wireshark, Netcat, Ettercap
Exploitation	Metasploit, SQLmap, Nikto
Web Testing	Burp Suite, SQLmap
Social Engineering	SEToolkit (Social Engineering Toolkit)
Password & Auth	John the Ripper
Operating Systems	Kali Linux, Linux (command line)
Programming	Python, JavaScript, HTML, CSS

PROJECTS

Cybersecurity Portfolio Website

HTML · CSS · JavaScript · 2026 · rajrohan-cyber.github.io

- Built a personal site to showcase cybersecurity certifications, learning, and projects
- Deployed on GitHub Pages for easy sharing with recruiters and interviewers
- Structured to clearly reflect a cybersecurity learning path and career goals

Vermithor 1.0 – CLI Voice Assistant

Python · Speech Recognition · Text-to-Speech · 2025 · github.com/RajRohan-Cyber/Vermithor-1.0

- Built a Python-based CLI voice assistant with wake-word detection and speech recognition
- Implemented voice responses, basic memory, and system & application commands
- Included microphone testing utilities for audio device setup and debugging

Vermithor 2.0 – GUI Voice Assistant with Local AI

Python · Faster-Whisper · Ollama · Tkinter · PyAutoGUI · 2025 · github.com/RajRohan-Cyber/Vermithor-2.0

- Expanded Vermithor 1.0 into a full desktop GUI app with local AI via Ollama — no cloud needed
- Integrated Faster-Whisper for accurate offline speech recognition and TTS for voice responses
- Supports app launching, browser actions, file & system automation, and Windows startup

EDUCATION

Bachelor of Technology – Computer Science & Engineering

BM Group of Institution · Farukhnagar, Gurugram, Haryana

2022 – 2026

Intermediate – 12th Grade

SLK College · Sitamarhi, Bihar · Bihar School Examination Board (BSEB)

2020 – 2022

Matriculation – 10th Grade

Nikhil Shyama DAV Public School · Sitamarhi, Bihar · CBSE

2019 – 2020
